---

Aspiring Ethical Hacker with an impressive home lab which is constantly growing. Dedicated to becoming an Ethical Hacker to help create a more secure network.

## Experience

HOME LABS 04/2023

Building a Hack The Box (HTB) profile to impress anyone to view it.

Built a personal server which runs minecraft for all of my friends to play on using an old dell desktop computer which I have full network control over.

VMWear 04/2023

My other old asus laptop and my main pc run Orical to utilize kali linux.

Computer Knowledge 2018-2022

I have learned a few different coding languages and used an old android phone all throughout high school to access the schools network.

Flagstaff Subaru

I communicate with customers about the maintenance their vehicles will need. While maintaining a professional look and experience for said customers.

## Awards

Samsung Solve For Tomorrow 02/2017

Won first prize for my school in the Samsung Solve For Tomorrow which required these skills

[https://www.youtube.com/watch?v=EdXCf4\\_yltM&t=3909s](https://www.youtube.com/watch?v=EdXCf4_yltM&t=3909s)

- Coding and understanding what is being done
- Fabricating a housing and circuit birds to fit the housing
- Network for the Elk detector to communicate to the other units

## Education

High School Diploma
